Mike Mazzitello, with Professional Services, spoke to the council about the communication tower project. The tower is an existing tower and has been inspected by engineers and specs were documented. Resolution #256- accepts the budget amendment adding expenditures to proprietary fund and additional revenue to the same fund. Motion was made by Daggett, and seconded by Epley. Motion carried.

Fire report- Joe Bennett called in anhydrous leak from the coop tank. The tank was suppose to move but hasn't happened yet. Roy Root is going to call Landus and find out when the tank will be removed.

Maintenance report- a lot of limb clean up because of the wind, mowing and trimming, sprayed ball field, hauled garbage from the park. Xenia has plans to meter the water fountain near the bike trail, so Xenia hasn't turned on the water until they meter it. The hydrant at the park is turned off because it is usually left on and is costly to the city.

The mayor spoke about the situation with the old post office and the sewer. The owner believes the ground has settled where the tank is and has caused the current condition of the building. The council agrees the owner should have maintained the building and takes care of their property. The mayor will contact the owner.

The meeting was adjourned at 8:15 PM.
